### 16. Course Coordinator:

Office numbers, office hours, phone numbers, and email addresses should be listed.
Dr. Mohammad Hussein  
Department of Physics  
Office: 206  
Phone #:00962-6-5355000  ext:22043  
E-mail: bashar_lahlouh@ju.edu.jo

### 17. Other instructors:

Office numbers, office hours, phone numbers, and email addresses should be listed.
Dr. Hassan Al-Juwhari, Dr. Bashar Lahlouh

### 18. Course Description:

Basic Principles of Electricity and Magnetism. Electric Field, Gauss’s Law; Electric Potential; Capacitance and Dielectrics; Current and Resistance; Direct Current Circuits, Magnetic Field, Sources of the Magnetic Field, Faraday's Laws of Induction.
19. Course aims and outcomes:

A- Aims:
1- Understanding the fundamental concepts in electricity and magnetism.
2- Utilizing physics concepts qualitatively as well as quantitatively.
3- To develop critical thinking and analytical problem-solving skills.
4- To gain an appreciation of how large a role electromagnetism plays in our daily life.

B- Intended Learning Outcomes (ILOs): Upon successful completion of this course students will be able to ...

1) Define what is a pn-junction.
2) Identify pn-junctions as diodes and transistors.
3) Be able to identify and analyze the different basic pn-junctions circuits and devices.
4) Understand the characteristic curves of both diodes and transistors.
5) Develop a proper understanding of op-amps and their applications.
6) Design simple electronics circuits.

21. Teaching Methods and Assignments:

Development of ILOs is promoted through the following teaching and learning methods:
Lecturing, Problem solving, specifically designed exams, and Class demonstrations.

22. Evaluation Methods and Course Requirements:

Opportunities to demonstrate achievement of the ILOs are provided through the following assessment methods and requirements:
Periodic Exams and class discussions.

23. Course Policies:

A- Attendance policies: Class attendance is mandatory. A student whose absence exceeds 15% of lectures will be dismissed.

B- Absences from exams and handing in assignments on time:
Absence from exams without an acceptable excuse means ZERO.
No grades for homework assignments. Some suggested problems will be discussed in class for every chapter.

C- Health and safety procedures:
No special precautions.

D- Honesty policy regarding cheating, plagiarism, misbehaviour:
All these issues will be considered according to the regulations and laws adopted at the University of Jordan.

E- Grading policy: First Exam: 20% Second Exam: 30% Final Exam: 50%

F- Available university services that support achievement in the course:
Class Room, Equipped Laboratory, Library

24. Required equipment:

Text Book, Lecture Notes, Scientific Calculator.

25. References:

B- Recommended books, materials, and media:
1. Raymond A. Serway and John W. Jewett Jr., "Physics For Scientists and Engineers with Modern Physics", 9th
26. Additional information:

Students are encouraged to engage in class discussions and are motivated to conduct simple experiments that may help them to better grasp the basic concepts behind the physics of electricity and magnetism.
