

The Department of Mathematics has one computer lab that has been updated for the 2021-2022 academic year to contain 65 computers of the type (Lenovo i7) , 50 of them are used for lectures and 15 are used by the students for printing , research, and study.

students are served in the laboratory from 8 am to 4 pm during the school days , and it is used for teaching the following courses :

- 1- Mathematics laboratory (using Mathematica 13.2 software) .
- 2- Statistical Techniques (using Minitab or Spss) .
