

The University of Jordan
School of Science
Department of Chemistry
Course Description

Department of Chemistry	
Year:	Semester:

Course Information	
Course Title	Search of Chemical Literature
Course Number	Bachelor Level
Course Credits	1 credit hours
Lectures Time	
Course Duration	one semester
Prerequisite	
Instructor	
Lectures Locations	Research labs
Office Location	
Office Hours	
e-mail	
Course Web Site:	Available on E-Learning

Evaluation Policy		
Assessment Type	Expected Date	Weight
Report		40
Presentation		30
Project Jury Assessment		30

Course Objectives

The Graduation Project's goal is to ensure that students have gained the skills, knowledge, and concepts required to perform well when they leave the university. Each student will use educational resources to expand his or her knowledge on a self-selected project or assigned problem. Students are also expected to demonstrate their proficiency in solving real-world problems within specified limits for the review board's outcome-based evaluation.

Teaching and Learning Methods

Question & Answer
Observation
Field Trip
Team/Group Work
Demonstration
Experiment
Brain Storming
Report Preparation and/or Presentation

Course Outline:

Will be required depending on the recommendation of the project supervisor and according to the needs of the specific project topics.
