

The University of Jordan

Accreditation & Quality Assurance Center

Course Syllabus

<u>Course Name:</u> <u>Rings of Continuous Functions</u>

1	Course title	Rings of Continuous Functions		
2	Course number	0301945		
3	Credit hours (theory, practical)	3		
	Contact hours (theory, practical)	3		
4	Prerequisites/requisites			
5	Program title	PhD. In Mathematics		
6	Program code			
7	Awarding institution	The University of Jordan		
8	Faculty	Science		
9	Department	Mathematics		
10	Level of course	Elective specialization requirement		
11	Year of study and semester (s)	1 st year, 2 nd semester		
12	Final Qualification	PhD. In Mathematics		
13	Other department (s) involved in teaching the course			
14	Language of Instruction	English		
15	Date of production/revision	18/10/2020		

16. Course Coordinator:

Prof. Emad Abuosba Math 308 Tel: 22088 E-mail: <u>eabuosba@ju.edu.jo</u>

17. Other instructors:

18. Course Description:

As stated in the approved study plan.

Ideals and z-filters, completely regular spaces, fixed ideals, compact spaces, ordered residue class rings, the Stone Cech compactification, characterization of maximal ideals.

19.Course aims and outcomes:

A- Aims:

- 1. To solve algebraic questions concerning the ring C(X) using the topological properties of X.
- 2. To solve topological questions on the space X using the algebraic properties of C(X).

B- Intended Learning Outcomes (ILOs): Upon successful completion of this course students will be able to ...

B1. To write correct mathematical proofs concerning the ring C(X).

B2. To Classify ideals in C(X).

B3. To characterize maximal ideals in C(X).

B4. To construct the Stone Cech compactification for a space X.

B5. To characterize prime ideals in C(X)

Торіс		Week	Achieved ILOs	Evaluation Methods	Reference
0.	Forward	1	B1	Home work	Text Book
1.	Functions on a topological space	2-3	B1	Home work	Text Book
2.	Ideals and z-filters	4-5	B2	First Exam	Text Book
3.	Completely regular spaces	6-7	B2	Home work	Text Book
4.	Fixed ideals, compact spaces	8-9	B2	Home work	Text Book
5.	Ordered residue class rings	10-11	B1	Home work	Text Book
6.	The Stone-Cech compactificatio n	11-12	B4	Second Exam	Text Book
7.	Characterization of maximal ideals	13-14	B3	Home work	Text Book
8.	Prime ideals	15	B5	Home work	Text Book

20.Topic Outline and Schedule:

21. Teaching Methods and Assignments:

Development of ILOs is promoted through the following <u>teaching and learning methods</u>:

In order to succeed in this course, each student needs to be an active participant in learning – both in class and out of class.

- Class time will be spent on lecture as well as discussion of homework problems and some group work.
- To actively participate in class, you need to prepare by reading the textbook and doing all assigned homework before class (homework will be assigned each class period, to be discussed the following period).
- You should be prepared to discuss your homework (including presenting your solutions to the class) at each class meeting, your class participation grade will be determined by your participation in this.
- You are encouraged to work together with other students and to ask questions and seek help from the professor, both in and out of class.

22. Evaluation Methods and Course Requirements:

Opportunities to demonstrate achievement of the ILOs are provided through the following assessment methods and requirements:

Evaluation Activity	Mark	Topic(s)	Period (Week)
Home Works	20		
First Exam	20		5
Second Exam	20		12
Final Exam	40		

23.Course Policies:

- 1. The student is not allowed to take the course and its pre-requisite in the same time.
- 2. Attendance is absolutely essential to succeed in this course. You are expected to attend every class; please notify your instructor if you know you are going to be absent. All exams must be taken at the scheduled time. Exceptions will be made only in extreme circumstances, by prior arrangement with the instructor.
- 3. If a student is absent for more than 10% of lectures without an excuse of sickness or due to other insurmountable difficulty, then he/she shall be barred from the final examination also he/she will get a failing grade in this course.
- 4. Medical certificates shall be given to the University Physician to be authorized by him. They should be presented to the Dean of the Faculty within two weeks of the student's ceasing to attend classes.
- 5. Test papers shall be returned to students after correction. His/her mark is considered final after a lapse of one week following their return.
- 6. Solutions for the exams questions and marks will be announced at e-learning platform

7. Cheating is prohibited. The University of Jordan regulations on cheating will be applied to any student who cheats in exams or on home works.
